PERSONAL PROJECTS

Network Administration (08/2019 – 11/2019)

- I fixed computer server problems. I can organize, install, and support the organization's computer systems, including local area networks (LANs), wide area networks (WANs), network segments, intranets, and other data communication systems.

IoT: Temperature and Humidity Sensor (02/2021 – 3/2021)

- The project involved simulating and designing a temperature and humidity sensor that can be used for homes.

SolarWinds Hack (04/2021 – 06/2021)

- The project was to illustrate the relevance and context of the underlying IoC by showing how this IoC is related to the compromise.

ORGANIZATIONS
